TWO POWERFUL OPTIONS. ONE RAZOR-SHARP CLEAN.

SharkVac robotic cleaners offer two powerful ways to eliminate dirt and debris: SharkVac cleans the pool floor and coves, while SharkVac XL™ delivers a complete clean by scouring the floor, walls, coves and waterline in just three hours. Both feature high-quality components and advanced technology for maximum energy efficiency plus incredible ease of operation—no hoses, hookups or extra pumps required. SharkVac cleaners also run separately from the pool's filtration system, reducing filter backwash frequency to save both time and money.

SharkVac

SharkVac XL

Easily removable top-access filter
two-fine porosity filter elements allow for quick cleanup and simple maintenance

Durable, high-quality motor
shortens cleaning cycles and extends cleaner life

Out-of-water and beach-entry sensors
prevent the cleaner from leaving the water while cleaning the waterline (XL only)

High-performance steering capabilities
optimize cleaning path for fast, complete results
